## Business Description

---

FiredUp is a personal finance management SaaS (Software as a Service) application that helps Polish consumers track their income, expenses, savings goals, and loans. The application provides:

1. **Manual Expense Tracking** - Users can manually log their expenses and income
2. **Automatic Bank Integration** - Optional feature to connect bank accounts for automatic transaction import
3. **Budgeting Tools** - Category-based spending analysis and budget planning
4. **Financial Goals** - Baby Steps methodology for debt payoff and savings goals
5. **Loan Management** - Track mortgages, car loans, and other debt

The bank integration feature uses Tink as the Account Information Service Provider (AISP) to securely access account and transaction data from Polish banks.

---

## Regulatory Status

Requirement	Status
AISP License	Not required - Using Tink's platform model
PSD2 Compliance	Via Tink (licensed AISP)
GDPR Compliance	Yes - See Data Handling documentation
Data Processing Registration	Registered with PUODO (Polish DPA)

Since FiredUp uses Tink's Platform model, we operate under Tink's AISP license. Tink is regulated by: - Finansinspektionen (Swedish FSA) - Financial Conduct Authority (UK FCA)

Tink is part of Visa Inc. and holds SOC 2 Type II and ISO 27001 certifications.
